

Denver School of Nursing

Dear Current or Prospective Student,

The Higher Education Opportunity Act (HEOA) of 2008 requires that Institutions make available to their students information regarding placement rates, including the methodology and time frame applicable to the rates.

To follow is the 2011 annual report placement rate data for the school.

This information is compiled based on the requirements of our accrediting body. Information is maintained, tracked and updated in our student data base system.

The methodology and time frame applicable to these rates is as follows:

Accrediting Body: ACCSC

The reporting period is July 1 through June 30. Placement statistics are calculated per program. Placement benchmarks are minimum 70% per program. While the reporting period is July 1 through June 30, dates used for the calculation will cover class start dates prior to this period. The dates are determined based on program length in months and allow for students to complete the program within 1.5 times the program length and 3 months to find employment.

Placement rates are calculated by total graduates divided by employed graduates for the reporting period.

Placements are determined by a graduate working in their field or a related field. Placement information is verified with the employer.

<u>Program</u>	<u>Placement Rate</u>	<u>Total Graduates</u>	<u>Total Placed</u>
Bachelor of Science in Nursing	87.80%	205	180
Associate Degree in Nursing	83.33%	66	55
LPN to Associate Degree in Nursing	88.89%	27	24

The rates are made available for the purposes of satisfying the HEOA, and are not to be construed as advertising.

For examples of types of employment obtained by our graduates, please review your catalog and/or consult with your Career Service's office.
